Owner: U. S. Government

Date of Erection: Date cut in brick 1727

Architect: Unknown

Builder:

Present Condition: The brick work is in a good state of preservation, but no interior original finish remains, and the doors and windows have been replaced with modern ones.

Number of Stories: Originally story and a half with two story porch projection in front and a one story extension at rear.

At some period the walls of the story and a half part have been carried up to give a full second story, thereby making the house two stories with the exception of the rear extension.

Materials of Construction: Brick, the original brickwork flemish bond with glazed headers, the later brickwork common bond.

*note: Chimneys seem to have belonged to an earlier, perhaps frame house. THW 8/16/41*
